WHAT DOES "CORE" & "20%" MEAN?

To facilitate California licensed dental professionals in complying with the Dental Board of California regulations, SDDS will identify each course's content as either a "Core" or a "20%" course. The two categories are defined as follows: Core courses must make up a minimum of 80% of the credits in a renewal cycle. These include courses that directly enhance the licensee's knowledge, skill and competence in the provision of service to patients or the community. 20% courses can make up only 20% of the credits in a renewal cycle. These include courses considered to be primarily of benefit to the licensee.
